

ACCEPTED DIGITAL DATA FORMS:

The PANFLEX, Ltd. has latest versions of commonly used graphics software and is able to receive and process such data. We accept data both on Mac OS and Windows platform.

MEDIA

Discs CD, CD-RW, DVD, DVD-RW
USB Flash memory
Hard drives USB, FireWire

INTERNET

E-mail: zakazky@panflex.cz

FTP: <ftp.panflex.cz>

For regular customers who send large volume of data via Internet PANFLEX, Ltd. can set the account on our ftp server (based on agreement). Data transfer via ftp protocol is significantly faster, more comfortable and secure.

Webflex: <http://web.panflex.cz/webflex>

Special application used to view, control and approval of data created in the PANFLEX, Ltd. prepress studio.

SOFTWARE

Mac OS Platform:

ArtPro
Adobe Illustrator
Adobe Photoshop
Adobe InDesign
Adobe Acrobat

Windows Platform:

Adobe Illustrator
Adobe Photoshop
Adobe InDesign
Adobe Acrobat
Corel Draw

We accept all internal data formats based on programs above. Data must be complete; including all bitmap images and fonts (fonts can be vectored).

The incoming data are converted to the Mac OS platform and imported into special prepress software when processing order in PANFLEX, Ltd. DTP.

GRAPHICS

Pixel graphics formats, including PSD [in layers](#) with a stored color profile, or TIFF, EPS, JPEG. Attention – take care for JPEG compression quality. It is lossy compression, and this is not always suitable format for prepress data exchange.

Graphics must be supplied in the resolution:

Bitmap line drawings resolution must be at least 600 dpi in 1:1.

Gray or colored pixel graphics in 1:1, the image resolution must be at least 300 dpi.

PDF

If interested, customers can deliver already finished data and ready for exposure in PDF format. We recommend consultation with our DTP studio where the customer will receive all necessary information how prepare the PDF file for our RIP.
